WELDING DECKS

The RMS Welding Deck is an aftermarket component designed to be adapted to most pay welders.

The decks have been designed to allow easy access to welding power sources and cabling allowing quick disconnects for move-arounds. They work integrally with all dual torch systems and are designed to minimize set up time.

The Weld Deck features:

- 70 KVa Kwiet Generator
- Enclosure for 4 Welding Machines
- 480,240,120 VAC Power
- Ladder for ease of access
- Adaptability to various sidebooms

Weld Deck	
General Specifications	
Width	110"
Length	90.5"
Height	104.5"
Weight (Fully Loaded)	8,200lbs
